Profile

Senior front-end developer:

- Passionate about clean, accessible, and maintainable code
- Proficient in JavaScript, React.js, TypeScript, and modern frameworks
- Effective in collaborative, agile environments

Currently seeking challenging full-time frontend roles where I can apply my expertise, grow, and contribute to building exceptional user experiences.

Experience

SENIOR FRONTEND DEVELOPER, ALLEYSIA, VANCOUVER, BC, CANADA – APR 2024, MARCH 2025

- Developed the main website, user (guest/host) dashboards, and admin panel
- Implemented core features including authentication, form builder, search, reservation, payment system, and a complex multi-step flow
- Integrated AI functionality to enhance search for packages, properties, cars, and guides
- Leveraged modern Next.js and React features (e.g., server components) to boost performance and maintainability
- Reviewed team code for quality, consistency, and adherence to best practices
- Worked closely with backend developers in an agile environment to ship new features rapidly

SENIOR FRONTEND DEVELOPER, WEBNA GROUP, TEHRAN, IRAN – JUNE 2020, FEB 2024

- Built travel agency websites using vanilla JavaScript and Web APIs, focusing on performance and responsiveness
- Developed visually rich, multilingual websites for ZarMacaron Group using Next.js, GSAP, and Framer Motion for smooth, dynamic animations

SENIOR FRONTEND DEVELOPER, ARENA REPAIR, MASHHAD, IRAN – APR 2023, JAN 2024

- Built high-performance user-facing websites, repairman/user dashboards, and admin panel

- Led a team of frontend developers, guiding architecture decisions and code quality
- Developed a complex, multi-step form using Redux and RTK Query with a focus on performance and UX
- Optimized app performance through advanced techniques like smart caching and efficient data fetching

FRONTEND DEVELOPER, PLAY VIAGGI, ROME, ITALY – DEC 2022 - NOV 2023

- Gradually integrated new UI designs to improve user experience and visual consistency
- Enhanced the payment system by implementing an installment payment option
- Improved overall website performance through code optimization and refactoring
- Collaborated with the backend team to fix bugs and develop new features in an agile workflow

FRONTEND DEVELOPER, TUEMA, ROME, ITALY – SEP 2020 - DEC 2022

- Built and maintained responsive web apps across multiple client-facing platforms
- Delivered scalable, maintainable UI components as part of a small frontend team
- Translated design mockups into clean, semantic HTML, SASS, and React code
- Followed frontend best practices, including component-based architecture and atomic design principles
- Developed user and admin interfaces with a focus on consistent, high-quality UX

Other Experience

FREELANCER; BIRJAND, IRAN – JUL 2019 - JAN 2024

FULLSTACK DEVELOPER, VIRANIKA, BIRJAND, IRAN – JAN 2018 - JUL 2019

WORDPRESS DEVELOPER, SELF EMPLOYED; BIRJAND, IRAN – MAY 2017 - JAN 2018

Skills

Languages: JavaScript (TypeScript), HTML, CSS/SASS, PHP, C

Frameworks & Libraries: React, Next.js, Vue.js, Redux (RTK & RTK Query), TanStack Query/Router, Tailwind CSS, MUI, Bootstrap, CSS-in-JS
